

Welcome to Under the Sea! We'll have Oceans of Fun!!!

Our classroom curriculum is all about hands on exploration through science, literacy, math and problem solving.

We focus on social/emotional development with Conscious Discipline to help you child learn self-regulation skills.

Messy learning is the BEST learning so get ready for fun art work and spectacular sensory activities!

Make sure you are checking your Tadpoles daily to know if your child is running low on supplies and to see all the fun your child is having in our class!

Hello!!! My Name is Mrs. Katy! I love reading, baking, painting and spending time in my garden. I am so excited to be your child's teacher!!
